To the Residents of West Hill Road,

We are moving forward with the reconstruction of West Hill Road. As you are well aware, this no small undertaking. The first stage of the project will be the replacement of the existing water main. We've determined that prior to the roadway reconstruction portion of project, the water main will be replaced in its entirety. With that said, we are updating the existing construction plans to incorporate this water system work. We will begin this summer by removing and upgrading the water main.

In the very near future, the releases that we mentioned previously will be mailed out to all residents providing more precise information as to what can be expected as part of the water main replacement.

Please rest assured that it is our goal to provide you, the residents of West Hill Road, with outstanding service and the assurance that we take the utmost pride in designing and implementing the highest quality of workmanship possible.

We thank you for your continued understanding and patience.

Sincerely,

Marlborough Public Works
